

STANDARD FEATURES

E-BRAKE SAFETY SWITCH

Increased operator safety with e-brake switches.

CASCADE SIDE SHIFT

{AMERICAN}

Quality built side shifters from Cascade are precise and durable.

ADJUSTABLE SUSPENSION SEAT WITH SAFETY SWITCH

Comfortable suspension seating for continuous operation, offering increased protection and comfort.

OVERHEAD HEAVY-DUTY ROOF PROTECTION WITH SKYLIGHT

Strong overhead protection for improved safety and visibility during operation.

TILT CYLINDER RUBBER BOOT COVERS

Tilt cylinders are fitted with protective rubber boots to prevent damage.

HEAVY DUTY LOAD BACKREST

Reduce the possibility of damage while transporting heavy loads. The removable load backrest is made from heavy 3/8" steel.

ERGONOMICALLY DESIGNED FOOT PEDALS

Foot pedal design for all-day operator comfort.

REINFORCED PROTECTIVE GUARD OVER FRONT MAST HYDRAULIC HOSE BLOCK

This solution prevents sheared hoses and costly time consuming repairs.

ENCLOSED CAB WITH HEAT DEFROST & WIPERS

Options for all-weather outdoor conditions.

CHARACTERISTICS & DIMENSIONS

- 1 Standard 3 stage mast 177" or 189"
Lift loads more than 15 feet of the ground with Titan's standard masts.
- 2 Choice of 42" or 48" fork length on class 2 or 3 forks
Superior fork strength to suit large loads and pallets.
- 3 6° forward mast tilt angle and up to 12° reverse mast tilt angle (5°~7° for 3 wheel electric trucks)
Significant tilt range, giving the operator more flexibility and safety.
- 4 Length to Face of Mast (without fork) from 2090mm (82") to 2770mm (109")
Compact design for expert maneuverability.
- 5 Overall Widths from 1100mm (43") to 1225mm (48")
Compact width for better handling in tight spaces
- 6 Mast Lowered Height between 2030mm(79") and 2175mm(85")
Compact mast design for clearance in low height environments.
- 7 Mast Extended Height (with backrest) from 4010mm(157") to 4860mm(191")
Superior lift height comes standard on every Titan lift truck.
